Navy Integrated Training Resources and Administration System

- *Sponsors:*

Owner - CNO

Executive Agent - CNET

- *Designated as the Navy's Corporate Training Database.*
- *Is the only official source of training statistical data for formal Navy Training.*

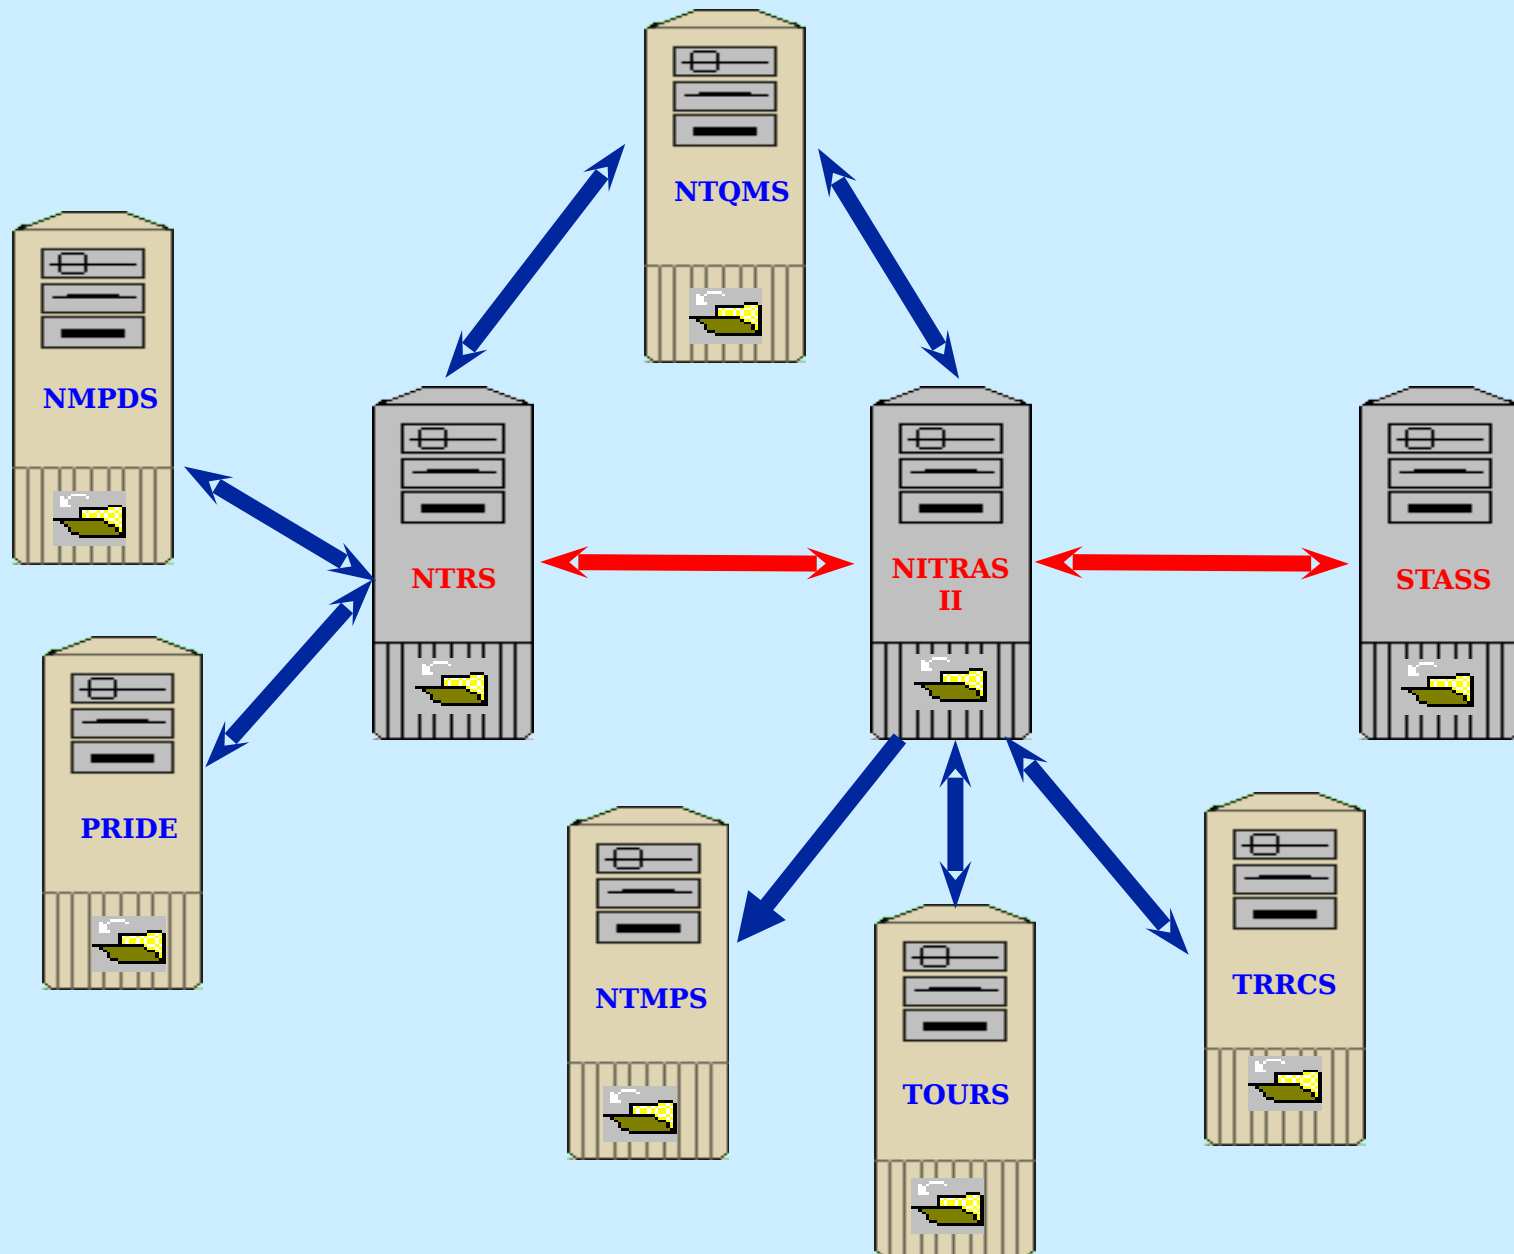

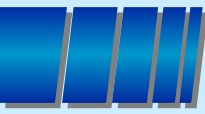

Navy Integrated Training Resources and Administration System

*Let's look at the
systems that
interface with
NITRAS II.*

NITRAS II Interfaces

NITRAS II manages and supports the Navy military training effort by collecting, compiling, and providing student and training information.

This system provides:

- Training requirements
- Course plans and schedules
- Catalog of Navy Training Courses (CANTRAC)
- Class Quotas
- Course Utilization
- Capability to Evaluate and Review Training Statistics
- Reporting of Student Course Completion, Attrition and Recommended NEC(s) to BUPERS
- Standard Reporting of Training Statistics, Time-to-Train Reports and User Defined Queries

NAVY CORPORATE TRAINING DATABASE

**REPORT
S**

NITRAS II has three components.

Each component contains detailed information about each formal training course offered by the Navy.

NAVY CORPORATE TRAINING DATABASE

COURSE has three levels of data storage and management; and contains training data on all Navy courses which provide the knowledge and skill required to achieve a goal.
